

MAJOR CHOSEN: MISSIONARY PREPARATION

I. A BRIEF DESCRIPTION OF THE MAJOR

"We would like to have more missionary candidates from the School of Applied Studies come to serve with our board. The graduates we have seen from that program not only know how to get the job done on the mission field, but also show a constant zeal to reach the lost for Christ." The wording varies, but this repeated observation from several mission board leaders has been regularly the same. Those who are responsible for replacing effective workers on the mission fields of the world appreciate the SAS product.

Should the Lord lead you to come to the School of Applied Studies for your training, you, too, will learn from teachers who are experienced and currently active in the Lord's work. Bible study here will equip you with broad Scriptural knowledge and will challenge you to become more like Christ in your life. You will be taught how to share God's Word with others. First-hand involvement in different types of ministry throughout your three years, coupled with practical instruction in all the core courses required for effective Christian service, makes it possible for you to have a quality of missionary training that is likely unparalleled.

We urge you to seize this opportunity to add to your future ministry for the Lord the same "know-how" and spiritual zeal that has captured the attention of so many Christian leaders around the world.

II. COURSE HIGHLIGHTS

Here are some of the courses you will especially enjoy:

Biblical Missions In this class you will learn the Scriptural principles, methods, and motives underlying effective missionary endeavor. You will also study the opportunities and personal qualifications of the missionary candidate. This course is taught by a man who has taken summer mission teams to the field for several years and has been involved in other Christian ministries.

Cults This course covers the teaching and history of those religious groups which hold doctrines contrary to Fundamental Christianity, including Mormons, Jehovah's Witnesses, Christian Scientists, Seventh-day Adventists, and Muslims.

Children's Ministries Here you will get an understanding of the various characteristics of children as well as how to teach them Bible truths.

III. A TYPICAL YEARLY COURSE SEQUENCE

This is a suggested program of study for you. Other refinements to your program can be made when you consult your faculty advisor at the time of your enrollment.

You will notice that some courses are listed as electives. These electives give you the opportunity to tailor your program by selecting courses you would like to take for your own personal enjoyment.

After completing the Associate of Applied Science degree in Missionary Preparation, you have the option of pursuing the Bachelor of Arts degree in Practical Christian Training.

All students have opportunity to participate in the University's athletic program. Through a well-integrated program of intramural athletic competition, a very high percentage of student participation is possible. You will have the opportunity to compete in a wide variety of both team and individual sports including soccer, basketball, softball, track, volleyball, tennis, swimming, badminton, table tennis, racquetball, archery, and wrestling.
