

**Following is a summary of the application and enrollment procedures for 8<sup>th</sup> grade students.**

**Academy Open House: February 15, 2010**

You are invited to join us for the Academy's Open House. It is a normal day of classes where you can observe both teachers and students in action.

**Application for Academy enrollment: early March**

Application materials will be mailed to your home, and the Admissions office will process the application, contact you as needed, and notify you about official acceptance to the Academy.

**Summer school registration: mid-April**

Rising ninth-graders may enroll in either World Geography or Physical Science. Your child may attend summer school even if his/her application process for the fall semester is not yet complete. We anticipate being able to accommodate each rising ninth-grader who desires to take summer school. The total cost for the summer session is \$581.

The summer session is from May 17 through June 25, 2010. The class hours are 7:30 a.m. until 12:20 p.m.

**Fall registration: mid-April**

In order to explain the registration process and BJA academics, I will meet with parents on April 13 at 7 p.m. in the Academy Auditorium and with students the following day during an assembly. We hope you will be able to come to the parent meeting even if you have had another child in the Academy. Our online class registration process will be explained at this meeting.

Academy honors math classes are available by invitation. Students who qualify for honors math will be notified before fall registration opens.

Detailed information about each of these events will be sent home in the coming weeks.
